ISRA POLAND

Overview of IEC Seattle Meetings

- 3-4 yearly meetings:
 - Technical Committee TC 34
 - Subcommittee SC 34A (lamps)
 - Subcommittee SC 34B (lamp caps and holders)
 - Subcommittee SC 34C (control gear)
 - Subcommittee SC 34D (luminaires)
- 6-monthly meetings of Maintenance Teams:
 - MT PRESCO (lamps)
 - MT EPC1-4 (lamp caps and holders)
 - MT COMEX (control gear)
 - MT LUMEX (luminaires)

Meetings TC 34 and SC 34A

- TC 34 and SC 34A:
 - High level meetings
 - Held every 3-4 years
 - Procedural matters such as:
 - Office bearers
 - Committee liaison
 - Strategic direction
 - Meeting rules, etc.

Meeting PRESCO

- More detailed technical discussion
- Curtailed due to half day session
- Prominent experts contribute most
- Tungsten halogen lamps:
 - Discussion of wattage limits, in safety standard (mandatory) rather than performance standard – agreed that temperature was the key safety issue
 - Aligning wattage / flux tolerances with EU regulation
- Fluorescent lamps:
 - Dimming - ongoing work
 - Various detailed technical work – end of life modes, etc.

Meeting PRESCO (cont'd)

□ CFLi

- New safety standard to be drafted (60968)
 - EU lamp manufacturers working on draft
- Performance standard (60969)
- New draft to be issued and Panel meeting in January
- To be discussed in lites.asia meeting tomorrow

□ LED

- Bulk of PRESCO work at present
- To be outlined in lites.asia meeting tomorrow

Meeting PRESCO (cont'd)

- Cold cathode fluorescent:
 - New performance and safety standards being drafted

Upcoming Meetings

- Panel meetings in January, Frankfurt:
 - Weeks of 10 Jan and 17 Jan, 2011
 - Experts invited from Maintenance Teams
- PRESCO, COMEX, LUMEX, EPC in April 2011, Tokyo
 - April 4-7, 2011
