

# ***Lites.asia - Fifth Workshop***

***Melia Hotel, Hanoi, Vietnam: 28-29 June, 2012***

## ***Final Programme***

### **DAY 1**

**08.30 Registration**

### **Compliance: Potential to Strengthen National Programmes and Work Cooperatively**

**09.00 Welcome and introductions**

*Welcome from our sponsor, including round table introduction of all delegates.*

**David Boughey**

*Assistant Director Lighting and Equipment Energy Efficiency Team  
Australia Department of Climate Change and Energy Efficiency*

**09.15 The UNEP/GEF en.lighten initiative: Issues and opportunities for collaboration**

*A brief introduction to issues to be raised tomorrow in the en.lighten presentation to enable consideration by delegates prior to the discussion.*

**Kathryn Conway**

*Programme Officer  
United Nations Environment Programme*

### **Compliance: Potential to Strengthen National Programmes and Work Cooperatively**

**09.30 Compliance – an introduction to options for compliance and the associated costs/benefits**

*What do we mean by compliance, and what approaches are used or available for Standards and Labelling programmes?*

*This presentation builds on the outcomes and lessons learned in the highly successful APEC Compliance meeting held on June 14-15 in Beijing.*

**Mark Ellis**

*Principal  
Mark Ellis and Associates*

**10.00 Country participants compliance regimes**

*Summary presentations of three differing compliance regimes in attendee countries. (10-15 minutes each).*

**Hai Dang Dung, Vietnam**  
**Asawin Asawutmangkul, Thailand**  
**Awang Riyadi, Indonesia**  
**Yujuan Xia, China**

**10.45 Break**

**11.15 Compliance – critical success factors for an effective program**

*What are the critical elements in all compliance systems, and how can these be strengthened to increase the likelihood of success? Areas to be examined include market entry; surveillance, verification and enforcement; and the often overlooked area of stakeholder communication.*

*Again this presentation builds on the outcomes and lessons learned in the highly successful APEC Compliance meeting held on June 14-15 in Beijing.*

**Mark Ellis**

<b>11.45</b>	<b>Potential collaborative compliance projects</b> <i>Group discussion on potential compliance related projects that would benefit from collaboration under the lites.asia umbrella. Potential areas for collaboration include:</i> <ul style="list-style-type: none"> <li>• Improved communications between governments/compliance system implementers and suppliers at the national and international level.</li> <li>• Label market surveillance.</li> <li>• Laboratory education, training and/or round robin testing.</li> <li>• Other suggestions to be developed and/or provided by delegates.</li> </ul> <i>Discussion to include update/feedback from the lites.asia questionnaire on laboratory capacity and other relevant international actions (eg BRESL).</i>	<b>Facilitated discussion</b>
<b>12.45</b>	<b>Lunch</b>	
<b>Communicating with the Consumer: Helping the Consumer Make the Right Choice</b>		
<b>13.45</b>	<b>Informing the consumer – key issues for helping the consumer make the right choice</b> <i>Review of discussions in previous lites.asia workshops of the extensive resources available to help commercial and domestic consumers make the right choice in selecting appropriate lighting.</i>	<b>Stuart Jeffcott</b>
<b>14.15</b>	<b>Potential collaborative consumer communications projects</b> <i>Group discussion on potential consumer communication/education projects that may benefit from regional collaboration. Potential areas for collaboration may include:</i> <ul style="list-style-type: none"> <li>• More consumer targeted information (product selection, usage, etc).</li> <li>• Strengthening links between professional bodies between countries and with governments.</li> <li>• Other suggestions to be developed and/or provided by delegates.</li> </ul>	<b>Facilitated discussion</b>
<b>14.45</b>	<b>Break</b>	
<b>Standards and Labelling: An Update</b>		
<b>15.15</b>	<b>IEC – Current status</b> <i>Update on recent IEC meeting outcomes and items on future IEC meeting agendas, particularly related to CFLs and SSL/LEDs. Meeting participants to identify what specific issues are important to the group and how should we respond.</i>	<i><b>lites.asia members who attended IEC meetings:</b></i> <b>David Boughey, Australia</b> <b>Rachman Mustar, Indonesia</b> <b>Roberto Cristobal, Philippines</b> <b>Luong Hoang Anh, Vietnam</b>
	<b>Update from the IEC Asia Pacific Regional Centre</b>	<b>Damien Lee</b> <i>Technical Officer</i> <b>IEC Asia Pacific Regional Centre</b>
<b>15.45</b>	<b>Country participants update on developments in national standards and labels for lighting</b> <i>An opportunity for participants to provide updates on new or existing standards and labelling requirements for lighting currently under review within their country.</i>	<b>Rachman Mustar, Indonesia</b> <b>Shyam Sujan, India</b> <b>SeongKuk Hur, Korea</b> <b>Raquel Huliganga, Philippines</b> <b>Panu Suwicharcherdchoo, Thailand</b>
<b>17.00</b>	<b>Summary and close Day 1</b>	<b>Stuart Jeffcott</b>
<b>18.00</b>	<b>Workshop Dinner</b>	

## DAY 2

**09.00 Welcome**

**Stuart Jeffcott**

### Standards and Labelling: Continued

**09.05 Update on the 4E SSL Annex Activities**

**David Boughey**

*Following previous lites.asia discussion on the IEA 4E SSL Annex, and in particular their development of performance standards for LEDs, an update will be given on recent activities and outcomes from the Annex*

**09.30 Proposals for a regional tropical LED performance requirement**

**Steve Coyne**

*Following up the last lites.asia meeting request, proposals are made on the performance criteria for LEDs in tropical environments.*

*Principal  
Light Naturally*

*The presentation will be followed by a facilitated discussion for delegates to agree on further actions related to LEDs.*

**Facilitated discussion**

**10.45 Break**

**11.15 Current status of UNEP/GEF en.lighten initiative**

**Kathryn Conway**

*An update on the progress of the UNEP/GEF en.lighten project which is seeking political commitment from countries to phase-out inefficient lamps by 2016. The initiative provides tools and resources to help developing and emerging countries plan and implement a national (or regional) efficient lighting strategy.*

**12.00 Phasing out incandescent lamps through lighting market transformation in Vietnam**

**Nguyen Trung Thang**  
*Project Director  
ISPONRE*

*An opportunity for lites.asia delegates to hear how one of the member countries is going about the challenging process of phasing-out the least efficient products from their market.*

**12.30 China phase out**

**Stuart Jeffcott**

*A brief overview of the schedule for the phase out of tungsten incandescent lamps in China*

**12.45 Any other business**

**13.00 Summary of agreed actions and workshop close**

**Stuart Jeffcott/Mark Ellis**

**13.30 Lunch**
