

Eighth *lites.asia* Regional Meeting

Manila, Republic of the Philippines

2-3 October 2013

Welcome and Introductions

Mel Slade

Australian Department of Industry

lites.asia Objectives

3

Bring regional policy makers and their support organisations together to:

- Increase participation by Asian economies in the IEC and other international standards development process
 - the aim being that resulting test methods and performance standards are appropriate to the region;
- Improve knowledge of standards in force and under development across the region
 - to learn from each other and not reinvent the wheel;
 - to identify opportunities where country/regional cooperation may be of benefit;
- Develop national and regional capacity for compliance in standards and labeling processes
 - to help consumers save money and countries reduce their electricity consumption

Agenda

4

- Progress on the CFL test methods and performance measures at the IEC
- Updates on LED standard international activity
- LED lighting – national initiatives by lites.asia countries
- In-depth look at lighting energy efficiency initiatives in the Philippines
- lites.asia labelling survey report
- Discussion on evaluation of lites.asia
- Energy Efficient Street Lighting
- Discussion on regional cooperation on lighting standards
- UNEP Enlighten update
- Meeting with Philippines lighting industry
